

Sugarcane Extract Polyphenol

is polyphenol complex derived from all natural sources.

Products' hydrophobic and hydrophilic properties reduce oxidative stress resulting in improved digestibility and growth performance.

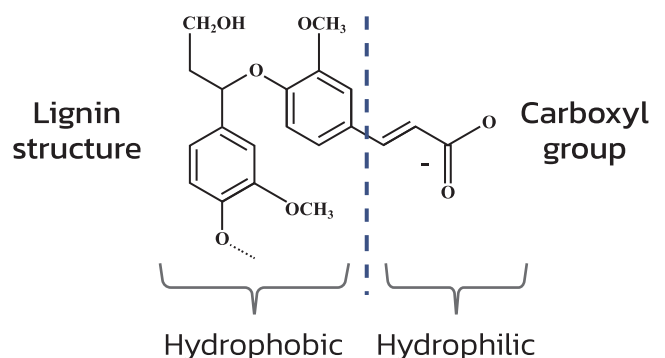

All-in-one

Feed Supplement

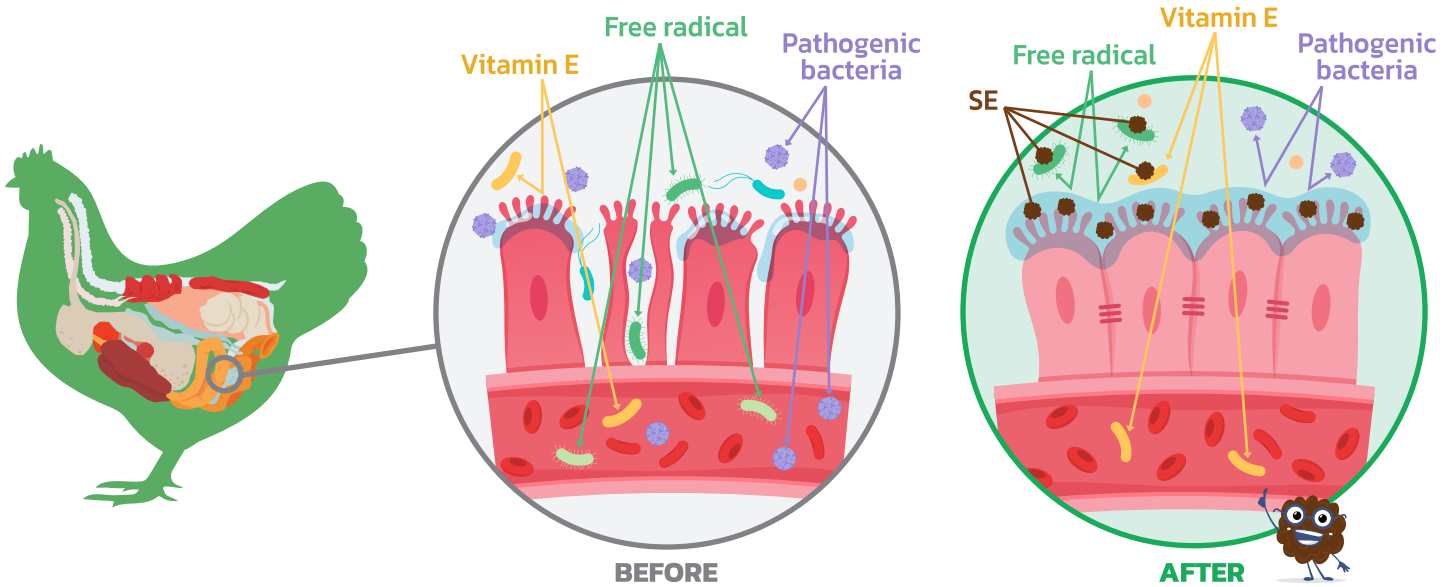

by natural resources

BENEFITS of Sugarcane Extract Polyphenol

- Enhance the growth performance
- Prevent and mitigate the negative effect of heat stress
- Improve intestinal barrier function

MODE OF ACTION

The use of Sugarcane Extract Polyphenol significantly **PROMOTES** growth performance, **IMPROVES** intestinal barrier function and **ENHANCES** antioxidant properties.
